

Controllers

Specifically designed for Hunter ceiling fans, these remote & wall controls will suit all applications. Specifically matched speed capacitors ensure your Hunter ceiling fan spins at the optimum speed, maximising air movement and minimising energy consumption.

Remote Controllers

99390

- 3 speed fan control
- Light dimming
- Low battery indicator
- Plug connections for quick DIY installation
- This remote is self pairing, requiring no need for access to the remote control receiver. This ensures no interference from other signals experienced sometimes with the old RF frequency technology.
- Compatible with all types of globes.

26008: 36"/91cm

Raw Aluminium (All weather)

28251: 36"/91cm

Note: Hunter fans are made with approximately 60cm of wiring loom coming out of the fan.

Therefore no wiring loom is needed for the 18"/45.7cm downrod, however all 36"/91cm and 72"/183cm downrods come with an extension loom included.

As the thread is only required at the fan motor end, all downrods can be cut to achieve the exact height desired.
