# Thermorad

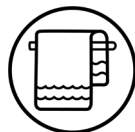

## The new way to dry your towels

Thermorad is a revolutionary new way to dry your towels. A heating panel is installed in the wall, creating an invisible towel dryer you can use with any robe hook, rail or ladder, and still experience the luxury of a warm, dry towel.

# Invisible Heat. Visible Comfort.

Create an  
invisible towel  
dryer

Suitable for use  
with any rail or  
robe hook

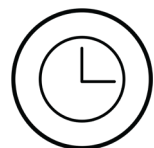

Reduce drying  
times by up to  
70%

Ten year  
warranty

Low energy  
usage

Set  
and forget

Watch the Thermorad  
install video

Consider adding a timer to control your Thermorad. By using a timer, you can ensure your towel is dry when you need it while also saving on running costs.
